Do not starve or starve together very open, almost any aspect of the game can be modified or expanded. Common fashion ideas include: New characters, complete with custom art and special abilities. Set up an existing character or item. Changing the behavior of beings. Create new weapons and items for players. Change the rules of the world generation to adjust the balance and feel of the game. Adding new locations and set-pieces to the world generation. Extending or adjusting the user interface. A brand new mechanic to challenge the player. Pets, monsters and other new characters in the world. And the modding community is still young, with plenty of new ideas yet to be explored! What will you create? What can't I do mod? For the most part, you can mod everything you want. However, there are a few restrictions for fair play goals and a healthy gaming environment. Fashions that use the work of other people without credited Fashion Permits that violate the Steam subscriber agreement or Klei's Content Guidelines Mods, designed to bypass the rights to metagames (i.e. skins, drops of items, DLC or product ownership) of fashions that contain copyrighted materials by which you own or have permission to use Any fashion that uses art or assets not fully created by the creator of fashion, must include a reference to where they must use any mod that uses art or assets not fully created by the creator of fashion, these individually or under a general license. Modding Etiquette: General guidelines Take a few minutes to read and familiarize ourselves with our modding etiquette guidelines. Please remember that modders are not required to support their fashions; And while you can ask the modder to add, remove or change parts of their mod, it's ultimately up to modders whether they make any changes or not. Public fashions should be complete and in working order with a full description of what the mod contains, with applicable screenshots and the title image of fashions intended only for personal use, should not be published for public use. Please provide detailed information about the resolution in the fashion description if you want others to be able to use your work. These may be specific names that have been allowed to use your work in a different fashion, general permissions for all and/or specific requirements for appropriation. If you want to modify and download another person's mod as part of your own work, be sure to ask them for permission if none of them are specifically granted and provide proper credit as required by the original creator. In the event that the permit is not explicitly granted; it is assumed that no permit has been issued. Where the mod has been abandoned, incomplete or no longer compatible and updated and rebooted by another member; Unless it is specified otherwise that the original mod will be considered abandoned and allowed to stay unless otherwise directed in the original mods description or removal of the original author; At this time the original mod will require specific permissions added to the mod to deny the reuse of the mod, and the rebooted mod will be removed. Fashions containing assets from other games or multimedia are not allowed. In addition to the Steam Subscribers Agreement and the Rules and Guidelines for User Content, we also ask you to follow our community recommendations and etiquette. Textbooks and modding discussions can be found on our official forums. The thought of making some custom characters for my friend and I use while we play together. The popular extended pattern pattern of the character looks like it would be hard to edit because the creator is fluffy as a template and I would just do normal people. Is there one out there that is much easier in comparison to what you guys know? I just want to replace some graphics, nothing more. More.
